

Your connected digital procurement hub

The hub provides a single point of access for all your stakeholders to participate and collaborate in procurement and buying activities. Improve efficiency and compliance by seamlessly channelling traffic through guided processes and to existing e-procurement systems.

The hub's interactive experience is designed to embed and track change as you move through your ongoing growth and transformation journey. Our flexible solution allows you to select key modules 'off the shelf' that adapt over time to align with the evolving needs of your organisation.

Our modular approach allows the interactive hub to adapt with the **evolving needs of your procurement organisation** throughout its ongoing transformation and growth journey.

- ✓ Lift the profile of your procurement organisation
- ✓ Embed and track change through an interactive user experience
- ✓ Engage and collaborate with your non-procurement stakeholders
- ✓ Improve efficiency, compliance and collaboration
- ✓ Measure, uplift and track procurement capability
- ✓ A modular solution that adapts to your evolving needs
- ✓ Branded to your organisational requirements
- ✓ A visible CPO legacy that supports your organisation's digital strategy

Pick & choose from our modules

Select from our range of modules or speak to us about custom co-designed solutions

Create a scalable solution to suit the needs & complexity of your business.

Get started with our base package

Our low cost base package is easily deployed and has been designed to have an immediate and effective impact on all your key stakeholders. Additional modules can be added at additional cost.

	Base Modules	Benefits
Governance	<ul style="list-style-type: none">Analytics & ReportingPolicy Hub	Classify and measure your spend to inform decision making. Ensure important organisational reference documents are easily accessible
Capability Development	<ul style="list-style-type: none">Organisational maturity assessmentIndividual capability assessmentsSupplier assessment for your top supplierseLearning modules	The assessments will support: <ul style="list-style-type: none">Development of your transformation road mapIdentification of capability gaps within teameLearning modules to address capability gaps
Value Delivery	<ul style="list-style-type: none">Guided BuyingInteractive ManualSupplier Onboarding	Guided interactive frameworks to improve compliance to all your policies, frameworks and systems
PLUS	All deployments come with these standard inclusions: <ul style="list-style-type: none">News FeedsQuick Links (inc systems)ForumsKnowledge Hub	

Our modules include our comprehensive online capability assessments that can support the development of your transformation road map and identification of your capability uplift requirements over time.

Customise the look and feel of your digital procurement hub

Flexibility is at the core of our solution. You are able to add your logo and branded header image, customise the layout and colours of the buttons on your home page and choose a name that suits your organisation.

Speak to us about how the interactive hub could benefit your organisation.
